Gavrilo Princip

Gavrilo Princip was a member of a Serbian terrorist organization known as "The Black Hand". Many Serbs wanted to bring Bosnia under Serb control. Princip's assassination of Archduke Franz Ferdinand **triggered** World War I. World War I and the ensuing Treaty of Versailles would create the conditions leading to World War II. World War II would in turn create the conditions leading to the Cold War.

Perhaps the world be a very different place today if Princip had not carried out his assassination of the Archduke. Millions of people have died as a result of the 20th century events that followed Princip's assassination of the Archduke. At very minimum, he triggered World War I.

Many would argue that confrontation between the world's great powers was inevitable. Yet, the Cold War did not lead to global warfare.
